

BTA's XDR Starter Pack services follow our proven S.I.M.P.L.E. methodology. We focus on integrating technology solutions to solve business challenges, secure critical infrastructure and accelerate time to value. In addition to solution implementation, this offering focuses on day 2 operations and adoption.

WHY BTA?

BTA has worked with hundreds of customers over 13+ years driving adoption of complex technology and delivering software and services through our SIMPLE service delivery methodology.

BTA's extensive knowledge of Enterprise Architecture, deploying advanced technologies, and the culture to share that knowledge are core to how we operate. BTA is a Cisco Mentored Install Network Training (MINT) partner.
